Train Accidents:

Date: FRA Reviewed: Description:

28-Apr-24	No	Yes	IM 1002089324 Derailment Medicine Hat
·			At approximately 2240 the C03 crew was shoving back into track 14 at Medicine Hat when they reported derailing one car. Through the investigation it was determined the crew was protecting the shove move in track 13 and did not realize they were actually tied onto track 14. They tied on and stretched the joint then proceeded to shove Z14 eastward shoving one set of trucks over the end of track sign.
			Action Taken: Crew interviewed Incident forms completed Post incident drug testing enroute Employees will be removed from service pending a formal investigation Drill down and Safety flash to follow.
			Preliminary Cause: Human factor - Failure to observe the correct track being shoved backwards.

Safety Hazard / Unsafe Condition Reports:

			Description
atus: Date	e: Depar	tment:	Classification: (include description, action taken by who and when to be complete
Completed	3-May-24	T&E	SHR 70000006187 Yard and enroute switching tank car is hard to visible at nighttime and recommend refle on end so it can reflect the light at night time. Reflectorized tape. Reply: our recommendation has been noted. Reflector stri both ends of the car body is not a requirement at this time f customers. Tank cars are shipped international between m customers, no regulations currently to have a reflective stri the car body ends.
Completed	2-May-24 entered on 3-	T&E	SHR 70000006188 East end of CIF Eastward whistle post missing at mile 165.8 brooks sub AB

	May-24		Install a new one.
			Reply: New whistle post will be installed immediately.
Completed	30-Apr-24 entered on 3- May-24	T&E	SHR 70000006186 Suffield, Alderson, Kininvie, Bantry when trying to get instructions from the foremen (2 of them) their radios kept cutting in and out. had to get them to repeat their instructions 4-5 times to finally get all the information. it like they were not keying the mic for parts of the instructions. im sure that was not the case, but clogging up the airways for an extended period of time is not only frustrating, but unsafe as well. fix whatever issues they're having with the radios. Reply: Communicating with a foreman would not be considered clogging up the airways. WH&S team advised and will discuss different options available with employee. Such as waiting until he is closer to the foreman's limits or dialing up a tower to contact the foreman directly. Tower code list will be provided to the employee, Completed on May 6.
Completed	26-Apr-24 entered on 29- Apr-24	S&C	SHR 70000006179 Signal 1048 Hatton West Signal numbers damaged/not visible. Repair sign. Update (Apr 29): We are getting a new sign made and will have it replaced within 7 days. In the interim we will mark it with a marker or paint pen to ensure the signal is identified. Reply (Apr 30): Updated provided to Employee at 1722 April 30th via text.
Completed	26-Apr-24 entered 30- Apr-24	T&E	SHR 70000006180 Dunmore West switch Patterson elevator needs adjusting. Adjust. Reply (Apr 30): Switch has been adjusted and oiled.
