On Board Trains Occupational Health and Safety Regulations (SOR/87-184)

Sanitation

6.2 (1) Every **employer** shall maintain each on-board accommodation and food preparation area used by employees in a clean and sanitary condition.

(2) On-board accommodation and food preparation areas shall be so used by employees that the accommodation or areas remain as clean and in as sanitary a condition as is possible.

6.3 All janitorial work that may cause dusty or unsanitary conditions shall be carried out in a manner that will prevent the contamination of the air by dust or other substances injurious to health.

6.4 All on-board accommodation and toilet rooms shall be constructed and maintained in a manner that prevents adverse health and safety conditions.

6.6 (1) Each garbage container that is used for solid or liquid waste in a work place shall

(a) be equipped with a tight-fitting cover;

(b) be so constructed that it can easily be cleaned and maintained in a sanitary condition; and **(c)** be leak-proof.

(2) Each garbage container referred to in subsection (1) shall be emptied at least once every day that it is used.

6.12 Every toilet room shall be fitted on the inside with a locking device that can be opened from the outside in an emergency.
